☐ **Using Chalk**

| | |
|--|--|
| <p>Children are encouraged to create any drawings using the chalk on either our chalkboards or the pavement outside. It may help to give children a theme such as under the sea, lost in space or African savannah.</p> | |
| <p><input type="checkbox"/> Boat challenge. Children are challenged to make a boat that can hold the most number of marbles using aluminium foil, a sheet of paper and tape. Then test them.</p> | |
| <p><input type="checkbox"/></p> | |
| | |
| | |
| <p>Shop simulation. Bring the till and fake money and encourage students to set up a shop as Olivia and Scarlett sometimes choose to do, they can then advertise their shop and its products (normally something from nature they've created) and sell to friends and staff.</p> | |

Easy Sundial Paper Plate Craft

Materials:

- paper plate
- plastic straw
- sharp pencil
- crayons
- duct tape

Directions:

1. Poke a hole in the center of a paper plate with a sharp pencil so the straw will go through.
2. Turn the paper plate upside down. Write the number "12" on the edge of the paper plate.
3. Use a ruler and draw a line from the 12 to the hole in the paper plate.
4. Put the Straw in the hole.
5. Decorate as desired.

Children can colour the segments and then cut out the shape. They will need to fold the tabs down and glue on the tabs to create the 3d shape.

Mothers day card (<https://www.easypeasyandfun.com/paper-flower-mothers-day-card/>)

Materials

- paper in red or other floral colour
- green paper
- cardstock for card base
- yellow paper
- paper trimmer or scissors
- circle punch (optional)
- glue
- scissors

Steps

1. Cut thick strips of paper.
2. Make paper loops. Apply glue on one end of the paper strip and glue the ends together.
3. Repeat step 2 to create a bunch of flower petals
4. Cut (or punch) a yellow circle. Glue the paper strips on one side of the circle.
5. Fold a sheet of cardstock in half.
6. Cut a thin strip of green paper (flower stem) and glue it on the card.
7. Stick the flower on the card.
8. Write a note to mum on the inside
9. Optional the children can draw themselves holding the flower in place of the photo

Turtle Craft for Kids

- Paint (green)
- Paint brush
- Pipe cleaner (green)
- Pom Pom (green)
- Googly eyes
- Glue
- Rock from outside or bark (shell component)

Steps

Step #1:

Paint your rock or bark with the green paint. Set it aside to dry. (Apply a second coat if it needs it).

Step #2:

Bend your pipe cleaner into a star shape. Make one point of the star a little smaller, this will be his tail. Set this aside to be glued on the shell once the paint dries.

Step #3:

Grab your green pom pom. This will be your turtles head. Glue your two googly eyes onto the pom pom. Set it aside to be glued on the shell once it is dry.

Step #4:

Check on your shell, once it is dry it is time to start gluing! Glue the star shape you made onto the bottom. This will be his four legs and tail.

Step #5:

Glue the pom pom head onto the end opposite the pipe cleaner tail.

Lightsabre bookmarks

Materials

- [White popsicle sticks](#)
- [Craft paint](#): white, black, silver
- [Glitter craft paint](#) in colours of your choice (red, green, blue, purple)
- [Toothpicks](#)

Steps

1. Paint all but $\frac{3}{4}$ -inch with glittered craft paint and repeat for a second coat.
2. Paint the end of the stick black. Use a toothpick dipped in silver paint to add dots and/or lines to the handles (black).

Pencils through a water bag challenge

Pour **water** in a zip lock **bag** from a jug. ... The plastic **bag** is made up of long chains of molecules called polymers. This makes a plastic **bag** stretchy. When the sharpened **pencil** pierces **through** the **bag**, these long chains of molecules seal around the **pencils** within seconds, thereby preventing a leak.

Challenge the students to see who can fit the most pencils in without there springing a leak. For bonus entertainment you could do this over a staff members head.
